NOTICE TO THE PUBLIC

SunLine has discontinued its COVID-19 Emergency Declaration and has returned its Board and Board Committee meetings to live and in-person attendance at the location noted above. These meetings are no longer available for viewing, attendance, or comment by two-way audiovisual platform, two-way telephonic service, webcasting, or streaming video broadcast. SunLine may prepare audio or video recordings of Board meetings. In accordance with the Brown Act and California Public Records Act, these recordings are subject to public inspection for a period of thirty (30) days after the meeting.

In compliance with the Brown Act, agenda materials distributed to the Board 72 hours or less prior to the meeting, which are public records relating to open-session agenda items, will be available for inspection by members of the public prior to or at the meeting at SunLine Transit Agency's Administration Building, 32505 Harry Oliver Trail, Thousand Palms, CA 92276 and on the Agency's website, www.sunline.org.

In compliance with the Americans with Disabilities Act, Government Code Section 54954.2, and the Federal Transit Administration Title VI, please contact the Clerk of the Board at (760) 343-3456 if special assistance is needed to participate in a Board meeting, including accessibility and translation services. Notification of at least 72 hours prior to the meeting time will assist staff in assuring reasonable arrangements can be made to provide assistance at the meeting.

RE: Monthly Budget Variance Report for December 2023

Summary:

The budget variance report compares revenues and expenses to the respective line item budgets. The report identifies current monthly revenues and expenses as well as fiscal year to date (FYTD) values. The budgetary figures are represented as a straight line budget. Accordingly, the current monthly budget values are calculated by taking 1/12th of the annual budget. The FYTD budget values for the month of December 2023 are equal to 6/12^{ths} of the yearly budget.

Year to Date Summary

- As of December 31, 2023, the Agency's FYTD revenues are \$280,354 or 23.28% above the FYTD budget.
- As of December 31, 2023, the Agency's FYTD expenditures are \$1,570,662 or 6.62% below the FYTD budget.

Monthly Spotlight:

- The negative variance in operator and mechanic wages is primarily due to unexpected arbitration awards in the maintenance department.

Recommendation:

Receive and file.

Other Revenue

- The positive variance in other revenue is primarily due to outside fuel sales of CNG.

Operator & Mechanic Salaries & Wages

- The unfavorable variance in wages is primarily due to unexpected arbitration awards.

Operator & Mechanic Overtime

- The unfavorable variance is primarily attributed to overtime due to the vehicle maintenance as needed.

Administration Salaries & Wages

- The favorable variance in administrative salaries and wages is primarily attributed to vacancies.

Administration Overtime

- The unfavorable variance is primarily attributed to overtime in the Operations and Maintenance departments.

Fringe Benefits

- Savings in fringe benefit expenditures are associated with vacancies across the Agency and budgeted cost increases scheduled to take effect in January 2024.

Communications

- Communication expenses are within an acceptable range of the budget.

Legal Services

- Legal services have had higher expenses due to legal representation for labor issues.

Computer/Network Software Agreement

- Software agreement expenditures are dependent on annual renewals of software agreements.

Uniforms

- Savings in uniform expenditures are related to fewer employees utilizing the entire uniform allowance.

Contracted Services

- Savings in contract services costs are primarily attributed to marketing and towing services.

Equipment Repairs

- The unfavorable balance in equipment repair costs are primarily associated with unexpected repairs conducted in September.

Security Services

- Security service are unfavorable primarily due to costs associated with increased service hours.

Fuel - CNG

- The positive variance is primarily attributed to fewer actual miles over budgeted estimates for FY24.

Fuel - Hydrogen

- The savings in the fuel - hydrogen is primarily attributed to lower usage of hydrogen fixed route vehicles as the agency is not utilizing the full fleet due to fueling issues.

Tires

- Tire expenses are less than anticipated due to fewer miles driven in FY24.

Office Supplies

- Office supply expenses are within an acceptable range of the budget.

Travel/Training

- The favorable variance for travel & training savings can be attributed to different times at which training sessions are attended.

Repair Parts

- The unfavorable variance is due to higher than usual repairs for fixed route vehicles in the month of December.

Facility Maintenance

- The unfavorable balance in facility maintenance expenses is primarily attributed to tree cleanup on Agency property in October.

Electricity - CNG & Hydrogen

- Electricity - CNG & Hydrogen expenses are less than anticipated due to fewer miles driven in FY24.

Natural Gas

- The positive variance is primarily attributed to lower usage of CNG fixed route vehicles over budgeted estimates for FY24.

Water and Gas

- Water and gas expenses are within an acceptable range of the budget.

Insurance Losses

- The positive variance is primarily due fewer YTD losses than anticipated.

Insurance Premium - Property

- Insurance premiums for property increased exceeding budgeted amount.

Repair Claims

- Repair claim expenses are unfavorable due to repairs conducted in the month of December related to bus shelter replacements.

Fuel Taxes

- Fuel tax expenses increased due to an increase in outside fuel sales.

Other Expenses

- The favorable variance is primarily due to YTD savings in contracted services.

Self-Consumed Fuel

- The variance in primarily due to less than anticipated fuel utilized by the Agency.

RE: Quarterly Performance Summary for Q4 of Calendar Year 2023

Summary:

The following quarterly reports demonstrate the performance of the bargaining and non-bargaining pension plans for the fourth quarter of calendar year 2023. The report shows market value, asset allocation percentage and performance compared to benchmarks. The bargaining and non-bargaining pension assets were up 8.57% and 8.58% for the fourth quarter of calendar year 2023, respectively. Pension plans are measured on long-term performance and it is expected that short-term fluctuations in market performance will exceed or fall short of long-term plan assumptions. The recommended actuarial employer contributions account for the disparity between assumptions.

Recommendation:

*[Current Estimate] At any point in time the valuation for private equity and other illiquid asset classes may be different from market prices due to an inherent lag effect in the industry. The reporting lag inherent in this process means that there can be a valuation lag of a quarter or, in some cases, even longer. For such illiquid asset classes shown herein, performance is calculated for the relevant period(s) using a roll-forward valuation approach whereby the last reported valuation is adjusted for cash flows to provide an initial estimated valuation, typically resulting in a zero return for the lagging period. Performance is adjusted and finalized when the updated valuation is reported. Returns are gross of management fees. The roll-forward valuation methodology described is consistent with guidance provided within the CFA Institute's Global Investment Performance Standards (GIPS). Performance is calculated using the Modified-Dietz time weighted methodology to maintain consistency with the other returns in this exhibit. For since inception IRR performance, please refer to the fund-specific overview page.

Returns are net of mutual fund fees.

Returns are expressed as percentages.

*Asset class level returns may vary from individual underlying manager returns due to cash flows.

*[Current Estimate] At any point in time the valuation for private equity and other illiquid asset classes may be different from market prices due to an inherent lag effect in the industry. The reporting lag inherent in this process means that there can be a valuation lag of a quarter or, in some cases, even longer. For such illiquid asset classes shown herein, performance is calculated for the relevant period(s) using a roll-forward valuation approach whereby the last reported valuation is adjusted for cash flows to provide an initial estimated valuation, typically resulting in a zero return for the lagging period. Performance is adjusted and finalized when the updated valuation is reported. Returns are gross of management fees. The roll-forward valuation methodology described is consistent with guidance provided within the CFA Institute's Global Investment Performance Standards (GIPS). Performance is calculated using the Modified-Dietz time weighted methodology to maintain consistency with the other returns in this exhibit. For since inception IRR performance, please refer to the fund-specific overview page.

Returns are net of mutual fund fees.

Returns are expressed as percentages.

*Asset class level returns may vary from individual underlying manager returns due to cash flows.

RE: Monthly Budget Variance Report for December 2023

Summary:

The budget variance report compares revenues and expenses to the respective line item budgets. The report identifies current monthly revenues and expenses as well as fiscal year to date (FYTD) values. The budgetary figures are represented as a straight line budget. Accordingly, the current monthly budget values are calculated by taking 1/12th of the annual budget. The FYTD budget values for the month of December 2023 are equal to 6/12^{ths} of the yearly budget.

Year to Date Summary

- As of December 31, 2023, the organization's revenues are \$15,829 or 16.01% above the FYTD budget.
- As of December 31, 2023, expenditures are \$22,964 or 23.23% below the FYTD budget.
- The net FYTD operating gain (loss) after expenses is \$38,793.

SunLine Transit Agency

DATE:	February 28, 2024	ACTION
TO:	Finance/Audit Committee Board of Directors	
FROM:	Luis Garcia, Chief Financial Officer	
RE:	Agreement for Specialized Legal Counsel	

Recommendation

Recommend that the Board of Directors delegate authority to the CEO/General Manager to negotiate and execute a contract with Atkinson, Andelson, Loya, Ruud & Romo (AALRR) for specialized labor counsel, upon approval as to form by general counsel. The proposed agreement would be for a period of two (2) years with three (3) option years and a total five (5) year cost not to exceed \$1,080,000.

Background

Historically, SunLine has primarily received legal counsel from one (1) firm providing general legal support. These firms have had the overall experience and attorneys capable of covering the vast majority of the Agency's legal needs across different categories and law. In more recent history, the Agency has seen success by having a separate firm assist with specialized legal services for labor counsel. Separating labor counsel provides an opportunity for greater expertise and also provides another option to traditional general counsel support. The awarded firm would be the primary counsel for items including, but not limited to, assistance with arbitrations, union negotiations, and advising staff on wage and labor issues under the Fair Labor Standards Act.

Currently, the Agency is also reviewing proposals for general counsel which is being scored by an ad-hoc Board committee. The results and recommended award to general counsel is expected to be presented at the March 2024 Board meeting. As the Board selects general counsel, approval was requested and received at the December 6, 2023 legal ad-hoc committee meeting for staff to review and score specialized legal counsel.

On January 9, 2024 staff issued Request for Proposals (RFP) 24-046. The RFP was advertised in a newspaper of general circulation and on Planet Bids. On February 13, 2024, nine (9) proposals were received. An evaluation committee representing staff from Maintenance, Operations, Human Resources and Finance departments evaluated the proposals in accordance with the criteria listed in the RFP. Upon completion of the review, AALRR was identified as the top qualified firm representing the best value for the Agency.

Financial Impact

The estimated financial impact of \$1,080,000 over five (5) years will be funded via the Agency's yearly Board approved operating budget.

There was adequate price competition since nine (9) bidders independently contended for the contract that is to be awarded. Best and Final Offers were requested from the firm with the highest score of all the vendors. Award is based on the highest evaluated proposal score for the evaluation criteria elements; Expertise and Experience, Qualifications and Experience of Key Personnel, and Price. Based on the results of the evaluation committee's scoring, Atkinson, Andelson, Loya, Ruud & Romo is the best value to the Agency. Based upon the results noted above, it is determined that the price submitted by Atkinson, Andelson, Loya, Ruud & Romo is considered fair and reasonable.

DATE: February 28, 2024 **ACTION**

TO: Finance/Audit Committee
Board of Directors

FROM: Walter Watcher, Deputy Chief of Project Delivery

RE: Award of Contract for Radio System Replacement

Recommendation

Recommend that the Board of Directors delegate authority to the CEO/General Manager to negotiate and execute a five (5) year contract including five (5) one-year options with Clever Devices Ltd., for the purchase and implementation of their Voice over Internet Protocol (VoIP) communications system. The total ten (10) year cost is not to exceed \$2,294,758 including tax, upon approval as to form by General Counsel.

Background

Currently, SunLine uses an analog two-way land mobile radio (LMR) system to communicate between operators, dispatch, maintenance and safety staff. The current system has surpassed its useful life and operates at a reduced capacity; spare parts are difficult to find and often only available on the secondhand market. To find a suitable replacement SunLine commenced studies and requirement development efforts to replace the aging LMR communications system.

On October 18, 2023, staff issued Request for Proposals (RFP) 24-029. The RFP was advertised in a newspaper of general circulation and a notice was posted on the Agency's website along with a copy of the RFP document. On December 21, 2023 four (4) proposals were received and all firms were invited to demonstrate their product offering. After the demonstrations, all firms were invited to submit a Best and Final Offer (BAFO) price.

An evaluation committee representing staff from Operations, Maintenance and Safety departments evaluated the proposals and system offerings in accordance with the criteria listed in the RFP that includes technical capability, functional requirement, price, relevant experience, performance, and demonstration. Upon completing the review, it was determined that Clever Devices represented the best value for the Agency. The costs in their proposal reflected an understanding of SunLine's current system along with a design that includes new hardware and software implementation to produce a best practices solution in the industry.

If approved by the Board, the new system will use digital VoIP technology to communicate over each bus's currently installed cellular-based network. The new system will provide higher reliability and improved coverage for SunLine's service area. As each vehicle is upgraded with the new system, the equipment can be provisioned and put into service. Fleet installations will be scheduled for completion in nine (9) months, followed by system acceptance and project closeout. Once the new system is installed staff will decommission SunLine's legacy LMR system.

Financial Impact

The initial capital expense of \$1,122,800 will be covered under project funds approved in the FY19 and FY23 Short Range Transit Plans which represents \$240,000 in Section 5307 and \$882,800 in State Transit Assistance funds. Yearly license renewals are expected to be \$130,218 per year over the next ten (10) years. These expenditures will be incorporated in the Agency's Board approved operating budgets.

RE: SunLine's FY24 RAISE Grant Application

Background

The U.S. Department of Transportation has authorized \$1.5 Billion in funding for FY24 Rebuilding American Infrastructure with Sustainability and Equity (RAISE) Grant Program. This funding was approved on November 15, 2021 as part of the Infrastructure Investment and Jobs Act (Bipartisan Infrastructure Law). Eligible projects for this program include capital and planning projects.

SunLine will pursue funding for a planning project that will fund development of a comprehensive master plan to assess the agency's needs as it continues to transition towards one-hundred percent zero-emissions technologies. The plan will take into consideration the projected growth of the Coachella Valley and overall community need.

SunLine's proposed project budget is \$14,890,131 with a federal share of \$11,912,104 and a local match commitment of \$2,978,027. The proposed project will provide direction for a more strategic pursuit of discretionary funding and will provide a competitive advantage for pursuit of capital funding.

Maintenance Update

The SunLine maintenance department conducted a pre-delivery inspection of the 15 RTA buses, identifying minor repairs as necessary, and confirming that the buses are in excellent condition. The RTA maintenance department is preparing the buses for transfer, and scheduling them for painting before delivery to SunLine. Once at SunLine, the buses will be fitted with all required equipment.

Mentors In Motion: Inspiring Each Other and Building Community – January 27

SunLine Transit Agency staff participated in the California Transit Works, Northern-Central California Regional Conference held on Saturday, January 27th, in Oakland, California. With approximately 170 attendees, including frontline workers, the conference focused on the theme "Mentors in Motion: Inspiring Each Other & Motivating our Community." Attendees engaged in discussions and workshops. The insights gained from other transit agencies enriched the understanding of best practices and strategies on how to enhance the collaborative efforts between SunLine Transit Agency and our labor partner ATU 1277. Updates on partnership work in 2023 were shared, and various caucuses were organized, including maintenance, educational leaders, management, and union, to explore distinct and common interests and concerns. The conference provided an opportunity for networking, learning, and furthering collaboration within the transit community.

We Love our Employees (February 7, 2024) and We Love our Customers (February 8, 2024)

Thursday, February 8th SunLine staff from the Executive Office and the Marketing Department went to major timepoints and additional busy bus stops to gift riders with bags that contained water, snacks and candies. Similar to past years, this was to show our customers that we appreciate them and thank them for riding SunLine's system. Posters were made and taken out on this day to ask riders to sign them. These posters will later be displayed throughout SunLine on National Transit Employee Appreciation day (March 18) to show SunLine employees how much riders appreciate and value their hard work and dedication.

The day prior to We Love our Customers the marketing department handed out the same bags to all SunLine employees with a message saying We Love our Employees.
